People Present: Pixie Grogan, Sena Raufi, Ojal Rakwal	coming together.	
What each member has done: Sena worked on backend connection to database. Pixie worked on the database and Ojal worked on tweaking and fixing functionality on the website. Members couldn't get much done due to 2 Exams and 40% ca due this week.	Decided upon after today:Pixie: update the database Sena: Fix CRUD method ,All: Make new classes in PHP	What was achieved: class diagram done and organized today.
Roles to be taken for today: Help pixie with doing the class diagrams and making sure backend connection works.	What was achieved: class diagram done and organized today.	Agreed with the lecturer: want everyone to keep certain section of the class clean classes. don't read from ui, use class in between rather than spewing it. Create data structure. replicate series of classes to table. need one for one. focus on testing classes.
Current status: Website close to being 100% functional. Backend coming together.
